There is a basic project available (award-winning architects), where the house has been raised (raising one floor above the height of the road and totaling 771 m² built on 4 levels. 2 swimming pools, one at the level of the road and another on the lower level) to make the most of the views and likewise a large garage above ground (2-3 cars). The price of the completed project for the house is approximately 3 500 000 €. It includes the topographical, geotechnical study and basic project ready to request a building license.
