■■■■■■■■:At one of the highest points of Sotogrande Alto is a remarkable plot that gathers scale, privacy and panoramic views of the Mediterranean, surrounding mountains and golf courses. Formed by the union of four consolidated plots of approximately 11,000 m2 in Zone G, the property offers a rare combination of size and flexibility. A previous municipal agreement allows the possibility of redivision in four, three or two plots, fully aligned with current planning regulations, giving the site both security and scope for long-term value. With a building area of about 3,620 m2, the plot provides the freedom to design a single architectural declaration or a refined collection of residences that make the most of their elevated position and natural light. Its cul-de-sac environment and dual access from two quiet streets guarantee privacy and ease of design. Sotogrande Alto is a secure and established community known for its peaceful surroundings, natural beauty and proximity to La Reserva Golf Club, Sotogrande International School, and the marina. For a buyer who values both creative freedom and durable quality, this is more than land. It is the basis for a durable home in one of the most distinguished private communities in Europe.
